Education

2019–2023	**Higher School of Economics**, *Faculty of Computer Science, AMI*, BS, GPA: 8.25 Including courses on: ML, DL, Advanced Algorithms and Data Structures
2021–2023	**Yandex School of Data Analysis**, *Data Science track* Including courses on: ML, DL, Advanced Python, Combinatorial optimization

Experience

2021–2021	**Intern Backend Developer**, *Yandex*, Moscow Developed microservices in C++ and Python, was told that I'm one of strongest interns
2021–present	**C++/Python/Algorithms teacher**, *Association of Olypiad winners, freelance*

Pet Projects

2017-2020	**I wanna go home** game available at Google play and website iwannagoho.me

Stack

Backend	C/C++, Python, C#, Assembly, Node JS, Haskell
Frontend	React JS, Redux JS, SASS/SCSS, PUG, Gulp
ML	Pandas, Numpy, JAX, Sklearn, PyTorch

Languages

English	Upper Intermediate
Russian	Native

Honors and Awards

2021	**Moscow Reginal ICPC**, *3rd degree diploma*
2019	**Open Olimpyad in Programming**, *2nd degree diploma*
2019	**Individual Olimpyad in Informatics and Programming**, *2rd degree diploma*

Additional interests

Algorithms	I am good at algorithms and data structures and taking even more related courses
CS research	Doing research in theory of computation and intrested in abstract algebra
ML research	Study articles on NN architectures
CTFs	Playing CTFs since 2018, played Volga CTF 2021 Qualifier with Bushwhackers
